CHAPTER 1 SYSTEM OVERVIEW

TOPICS COVERED IN THIS CHAPTER

- ◆ RELEASE 3.12 NEW FEATURES
- ◆ BEFORE YOU BEGIN

This system enables registered users to file documents with the court anytime, anywhere, 24 hours a day, seven days a week. This highly automated, scalable system provides customers the opportunity to transition from an inefficient paper-based process to a streamlined technology-based electronic filing (e-filing) system.

RELEASE 3.12 NEW FEATURES

The following features are new for Release 3.12.

Note: Features vary based on your system configuration.

Filing Status – Returned

A filer can now review the status of a returned filing on the *Filings* page. The status is updated to **Returned**, still allowing the filings to be canceled and the envelope copied.

Note: When a reviewer returns a filing, the new status of Returned instead of Submitted is displayed on the *Filings* page.

Case # CC-15-379

Envelope # 21220 filed June 26, 2015 at 10:44 AM by Steve Kastner

Case Loads with a Large Number of Parties

Filers can now file into cases with a large number of parties.

Previously, the system would crash when a filer filed into a case with a large number of parties. The system now provides more support for filing into these types of cases. When more than 100 parties are on a case, only the first party of each required party type is displayed, along with a message that **additional parties excluded due to system constraints**. This update allows filers to file into cases with a large number of parties on the case.

BEFORE YOU BEGIN

Before you begin, there are several items you should be aware of to assist you with the successful operation of your software.

Note: Depending on your setup, all features may not be available. As a result, your screen may vary from what is shown in the document.

SYSTEM REQUIREMENTS

This section describes the recommended system requirements to successfully use the system.

- **Browser Requirements** – The system supports current versions of the Windows operating system using Internet Explorer 7 or above or Firefox. If your browser does not meet these minimum requirements, please contact your network administrator.
- **Connection Requirements** – A high-speed Internet connection is recommended.
- **Minimum Screen Resolution** – For best results, a setting of 1024x768 or better is highly recommended. If necessary, users can set their monitors to 800x600 pixels, but doing so may compromise the graphic display.
- **Document Format** – PDF is the only format allowed for attaching documents when using the system.

PAGE NAVIGATION

The following sections describe how to navigate the system and populate data fields throughout the filing process.

Navigate with Breadcrumbs

Breadcrumbs are a visual representation of the page you are currently on in the filing process. As you complete a page, the next page's title illuminates to show where you are in the process.

i Note: Breadcrumb navigation requires information to be entered in a sequential order. You cannot move to the next breadcrumb until all of the required information on the current or previous page is completed.

Resume Filing

At any point in the filing process, the system automatically saves a draft of the page on which you have completed all required fields. This feature allows you to stop work on a filing and resume the filing at a later time. To resume filing of a saved draft, click the **WORKSPACE** link at the top of the page, find your case on the **FILINGS** screen, and click the  icon to resume your filing.

The screenshot shows the 'FILINGS' workspace with a navigation bar at the top containing 'FILINGS', 'BOOKMARKS', 'TEMPLATES', and 'SERVICE CONTACTS'. Below the navigation bar are filters for 'My Firm', 'All Statuses', 'All Locations', 'From Date', and 'To Date'. The main content area displays three case entries:

ERROR MESSAGES

The system displays several error messages to alert users when required information is not entered or invalid information is provided.

Password Reset Errors Scenarios

Enter Data in Required Fields

Required fields are those that contain an asterisk (*) next to the field name. If you don't enter the information required into a required field and try to advance, you will receive error messages.

When an invalid error message is displayed, this means that a required field must be populated to continue.

If the screen does not change when a navigation button is selected, look for a field outlined in red in your form. Place a cursor on the outline of the field. A required field message is displayed.

The screenshot shows a close-up of a "Zip*" field. The text "654656" is entered into the field, which has a red outline. To the right of the field is a red button with the text "Invalid Zip Code".

CHAPTER 2 E-FILING OVERVIEW

TOPICS COVERED IN THIS CHAPTER

◆ FILING QUEUE STATUS

This section describes the e-filing process.

Figure 2.1 – The E-Filing Process

Once a user has registered to use File & Serve, a filer can electronically file documents to the court. When the filing is submitted, the filing is electronically delivered to the clerk's inbox. The clerk then reviews the filing and either accepts, rejects or returns the filing.

If the clerk accepts the filing, the case is docketed and set to appear in the clerk's case management system. An electronic mail is sent to the filer with the case status along with any pertinent information regarding the case. If the option for service was selected during the filing, service is electronically sent to the contacts on the case.

If the filing is rejected or returned, the envelope is sent back to the filer with a reason and the filer is given a time line in which to make the correction and re-submit the filing.

If the filer has questions regarding their filing or case, it is recommended that the filer contact the local court.

FILING QUEUE STATUS

The filing queue status lets you know where you are in the e-filing process. The key represents the status listed for your filing.

The following filing status key table describes the status associated with each filing type.

Status	Filing Type	Definition
Draft	EFO, EFS, SO	Filer entered full or partial filing data, but has not yet submitted filing.
Submitting	EFO, EFS, SO	Filer has submitted filing, but the document file format and payment information have not been verified on the back end.
Submitted	EFO, EFS, SO	Document file format and payment information have been verified and accepted, but the filing has not yet entered the Review Queue/Workflow Process.
Court Processing	EFO, EFS, SO	Some additional action needs to be taken by the court.
Under Review	EFO, EFS	A clerk reviewer has selected filing from a queue. Note: Once a filing reaches the Under Review status, it cannot return to the Submitted status. Selecting the End Review retains the Under Review status and returns the filing to the queue.
Accepted	EFO, EFS	Reviewer has reviewed filing and accepted.
Rejected	EFO, EFS	Reviewer has reviewed filing and rejected.
Returned	EFO, EFS	Reviewer has reviewed filing and returned the filing as additional action needs to be taken by the filer. Note: Filer can cancel or copy a filing in Returned status.
Served	SO	Service only filings completed.
Service Incomplete (Service Only filings)	SO	One or more servings failed, the service was incomplete. Example: Email or domain rejected

Status	Filing Type	Definition
Cancelled	EFO, EFS, SO	Filer has cancelled the filing. Filer can only cancel draft and submitted filings.
Submission Failed	EFO, EFS	File format or billing error has occurred upon filer submitted filing. Failure specifics are available on the Details screen, and the filer is notified of specifics through email.

The system provides a way to upload a file type that is not converted into PDF format. Users can download and view the files externally using the RTF document format.

The Auxiliary Filing feature enables filers to upload an editable RTF version of a document to the court. For example, many courts require documents to be in PDF format; however, a judicial officer may want an editable version of the document sent to the court to be able to modify the document in the Proposed Orders. As a result, the filer would submit both the PDF and the RTF versions of the same document. The RTF version is used only if the judge is making changes to the filing.

The screenshot shows the 'FILINGS' screen with a navigation bar at the top containing 'FILINGS', 'BOOKMARKS', 'TEMPLATES', and 'SERVICE CONTACTS'. Below the navigation bar are filters for 'My Firm', 'All Statuses', 'All Locations', 'From Date', 'To Date', and 'Case or Envelope', along with 'Filter' and 'Export' buttons. FILTERING THE FILINGS QUEUE

The **Filings** queue screen displays the status of each filing. The status information is located in the status column on the **Filings** screen. You will only see the status for the filings that you or your firm have submitted when logged on to the system, not all filings related to a case.

Note: Only you and your firm may see this information.

1. Select **Filings** on the toolbar.

All relevant information is displayed concerning your filings.

2. Select the filter parameters using the drop-down lists, or enter specific information in the search fields.

EXPORTING E-FILING TRANSACTIONS

You can export a copy of the filings in the **Filings** queue to your computer using the **Export** option.

Figure 13.4 – Filings Screen

Perform the following steps to export a copy of your filings to your computer:

1. Select the **Filings** tab on the toolbar.
2. Click the **Export** button.

The Windows Explorer window opens on your screen. This will allow you to export your filings to a Microsoft Office XML file.

Figure 13.5 – File Name Field

4. Click the **Save** button to save the filings to your computer, or click the **Cancel** button to cancel.

The files are saved on your computer.

VIEWING THE EXPORT FILE

Once the file has been exported, navigate to the location where the file was saved and open the file. Depending on the operating system (Windows or Mac) and programs installed on your computer, your options here will vary. If Microsoft Excel (or a similar application) is installed on your computer, using it is the simplest way to view the data.

When the XML file is opened, there will be two worksheets – one named Envelopes and one named Filings. Most users find the Envelopes worksheet easier to use for reconciliation of credit card statements, as the Filings worksheet will contain multiple rows of data for envelopes created with multiple filings. Currently, the Export contains the following fields in the Envelopes worksheet: Order ID, Case, Case Description (Case Style), Filed Date, Court Fee, Service Fee, Convenience Fee, Total Fee, Response, Capture Date, Accept Date, Account, Responsible Party, Envelope #, Reference Number.

Using Microsoft Excel (or a similar application) provides the ability to sort, filter, and total the data being exported. Once the data has been sorted and filtered as appropriate, the 'Total Fee' column can be totaled

using a formula. The Reference Number field is designed to be a way to link the client file in your office back to the filings created and is used for internal purposes only. When e-filing a document and using the Reference Number in this manner, it will assist in reconciliation of charges to client files.

COPYING THE ENVELOPE

You can copy an envelope to create a new envelope to resubmit to the courts using the  icon on the **Filings** screen if your filing has been rejected.

Note: The icon is gray and unavailable if the envelope was previously copied.

Perform the following steps to copy the envelope:

1. Click the **Filings** link on the menu.

The screenshot shows the 'FILINGS' screen with a navigation bar at the top containing 'FILINGS', 'BOOKMARKS', 'TEMPLATES', and 'SERVICE CONTACTS'.
